## Experience the Magic and Mystery of the Land of the Pharaohs

Is Egypt Calling you home? Do the pyramids appear in your dreams and do your thoughts drift across time and space to King Tut and those magnificent days of old? Do you imagine walking the Valley of the Kings or lying in the sarcophagus in the Kings Chamber of the great pyramid? Does Isis or Horus capture your imagination?

There are many ways that Egypt can call you home. For me it was back in January of 1992. It was a normal day until that moment when a thought entered my head with such force that it shook me to the core. I knew and I knew that I knew...I had to get to Egypt...immediately. Now you can too. This participatory workshop will allow you take a magical journey so you can experience the mystical land of Egypt for yourself. Through pictures, stories, and a past life regressions you can reclaim your old memories as you make new ones.
